

- ▶ **Raw material:** Alumina oxide、Zirconia
- ▶ **Cloth base:** Domestic abrasive clothes、Imported abrasive clothes
- ▶ **Diameter:** 8-50mm
- ▶ **Grit size:** 60-1000# (800 #、1000 #need to be customized)
- ▶ **Shank length:** 30mm/35mm other lengths can be customized
- ▶ **Inner hole sizes:** 3mm、6mm、3.175mm、6.35mm、8mm、10mm、Other shank dimensions can be customized

- ▶ **Features:** High elasticity、High performance capacity、Strong grinding and cutting force、Fast heat dissipation、resistance to consumption
- ▶ **Use with:** Electric and pneumatic tools、Grinders and other tools
- ▶ **Usage:** Widely used in various metal surface treatment、Derusting、Deburring、Cleaning welding scar、Cleaning coating、Polishing、Painting removing and pre-treatment.

MINIATURE UNMOUNTED FLAP WHEELS

General information

SIZE CHART:

Unit: mm

Miniature Unmounted Flap Wheels										
Model	D(mm) Diameter	H(mm) Height	d(mm) Shank diameter		h(mm) Shank Length	Grit Size(#)	Package (pcs/bag)	The highest speed(rpm)	Graph 3D drawing

PROCESSING ILLUSTRATION:

- ▶ **Raw material:** Alumina oxide 、 zirconia
- ▶ **Cloth base:** Domestic abrasive clothes, imported abrasive clothes
- ▶ **Application purpose:** Fine polishing

PRODUCT DETAILS:

SAMPLE BOX:

▶ 3mm Shank Mix Box -HK1001

Including 10 free choice of unmounted flap wheels: Dimension size D10mm -D20mm, grit size 60#-600# and 1 nickel plated shank
HK1001 Mix Box is special for miniture inner hole sizes or low-cut grooves, small moulds, and it can focus on surface rust removing, cleasing, polishing and shinning application.,

- ▶ **Grit size:** 60-1000# (800 # 、 1000 #need to be customized)
- ▶ **Inner hole sizes:** 3mm 6mm 3.175mm 6.35mm 8mm 10mm
- ▶ Miniature Unmounted flap wheel has a variety of sizes and grits.

Find OEM Available Features below :

Height	Shank Sizes	Raw Material	Shank Length	Diameter
√	√	√	√	√

Application Area :

- ▶ Idea for aluminum alloy and metal grinding and polishing;
- ▶ Different shapes, such as inner holes, concavo-convex surface etc.

Material Specification :

- ▶ More elastic and flexibility by comparing with mounted flap wheel.
- ▶ Fast stock removing and wear-resistant.
- ▶ Good for rust removing, grinding, polishing, cleaning and shinning.
- ▶ Fast change, shanks and flap wheels are connected by screwing joint.

▶ 6mm Shank Mix Box -HK1002

Including 5 free choice of unmounted flap wheels: Dimension size D20mm -D50mm, grit size 60#-600# and 1 nickel plated shank
HK1002Mix Box is special for bigger inner hole sizes or deep-cut grooves, bigger size moulds, they can focus on surface rust removing, cleasing, polishing and shinning application.,
